1. User Guide for A.M.I. website navigation

1.1 Terminology

Term	Description
A.M.I	Artificial Medical Intelligence
AI	Artificial Intelligence
Hyperlink	A link that sends a user to another page within the website
Modes	The different types of users can access the website. There are two types: Guest: Access to limited functionality. Account: Access to full functionality.
Prompt	An input (e.g. text, image, question, command) that contains context and/or instructions to a model to generate a response.
Response	A machine-generated reply in terms of the context and/or instructions given in a prompt.

1.2 Homepage

When entering the A.M.I. website, you will be presented with the Homepage. There will be a choice between 3 hyperlinks:

1. Login: Allows you to log into your A.M.I. account.
2. Register: Allows you to create an A.M.I. account.
3. Guest Mode: Allows you to access A.M.I. without logging in (with limited functionality).

1.3 Registration

A screenshot of a registration form titled 'REGISTER'. The form is centered on a light gray background. It has a 'Back' button at the top left. Below the title, there are two input fields: 'Username' and 'Password'. Below these fields is a black 'Register' button. At the bottom of the form, there is a link that says 'Already have an account?'.

Allows the creation of an A.M.I. account. Users are given the following options:

1. Back button: Goes back to the Homepage.

2. Username field: Place a username.

3. Password field: Place a password.

4. Sign-up button: After placing a username and password, submit it by clicking here.

5. Login (Hyperlink): If you already have an account, this allows you to go to the Login page directly.

1.4 Login

back LOGIN

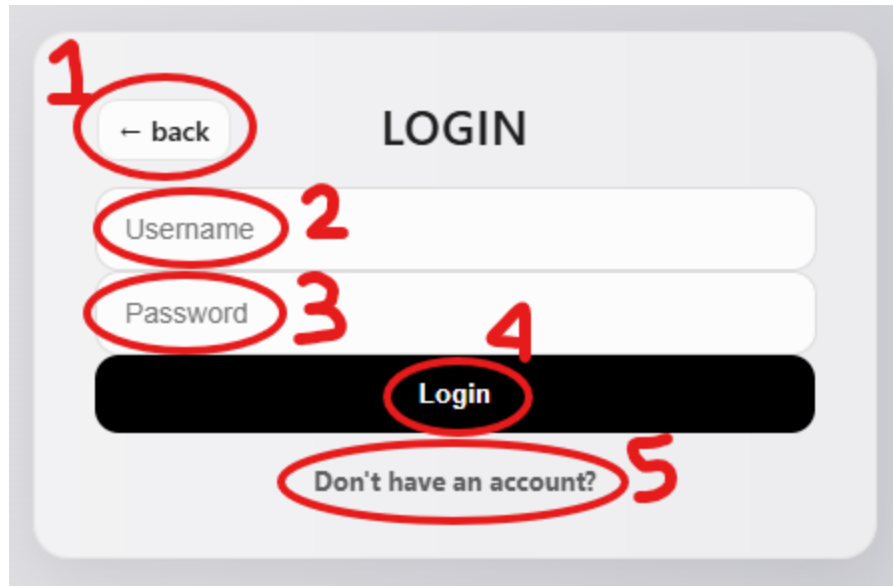

Username

Password

Login

Don't have an account?

Allows the signing into an A.M.I. account. Users are given the following options:

1. Back button: Goes back to the Homepage.
2. Username field: Place username.
3. Password field: Place password.
4. Login button: After placing a username and password, submit it by clicking here.
5. Register (Hyperlink): If you do not have an account, this allows you to go to the Registration page directly.

1.5 Modes

These are the different types of users you can access.

1.5.1 Guest

Allows users to access A.M.I. without requiring an account.

1.5.1.1 Functionality

1. In the Chat page, you are allowed to have 1 chat with A.M.I.'s AI model.
2. In the Settings page, you can change the website's appearance between light mode and dark mode.
3. Can access the About Us page.
4. The Account page allows you to login, register, or exit guest mode.
5. As a guest, there will be a banner on the top right of the Account page informing you of the benefits of an account.

1.5.2 Account

Allows users to access all A.M.I. has to offer.

1.5.2.1 Benefits

1. Generate unlimited chats with A.M.I.

2. Save chats with A.M.I.
3. Customize your experience by adding your preferences in settings.

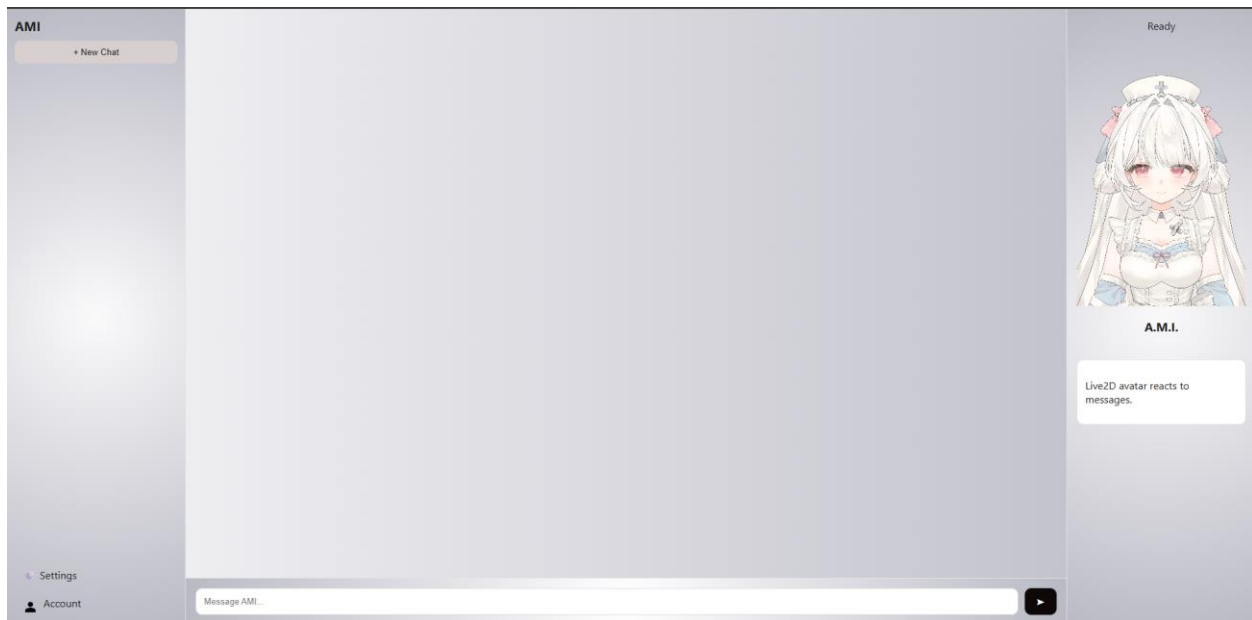

1.5.2.2 Functionality

1. Retain all functionality of a guest user.
2. In the Chat page, on the menu bar, you can:
 - a. Choose to generate a new chat.
 - b. Select one of the saved chats.
3. In the Settings page, you can update your preferences with A.M.I. AI model.
4. The Account page allows you to sign out, enter guest mode, or delete your account.

1.6 Chats

This is the main page where users can interact with the A.M.I. AI model and the rest of the features of the A.M.I. website.

1.6.1 Guest User

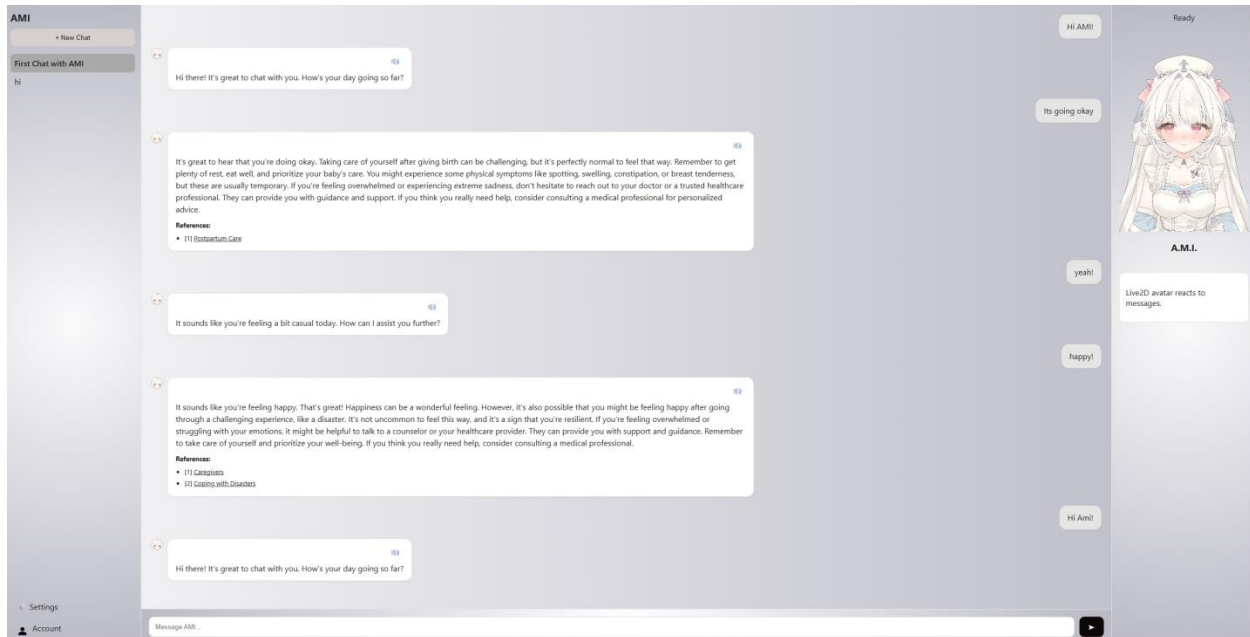

A Guest user can access the following features:

- Menu bar (left side):
 - Bottom:
 - Settings (Hyperlink)
 - Account (Hyperlink)
- Input Field: Where users can insert their prompts to the A.M.I. AI model.
- Message List: Where all the messages between the user and the A.M.I. AI model is shown.
- Avatar bar (Right side):
 - Status icon: Provides the status of the A.M.I. AI model which can be:
 - Ready: When in an idle state.

- Urgent Symptoms Detected: User prompt causes concern.
- Reviewing Trusted Sources: When pulling data from the database.
- Generating Response: Informs user that the reply is being created.
- Avatar: Displays the AI avatar model of A.M.I.
- Text Bubble: Shows the text of the A.M.I. AI model's response.

1.6.2 Account User

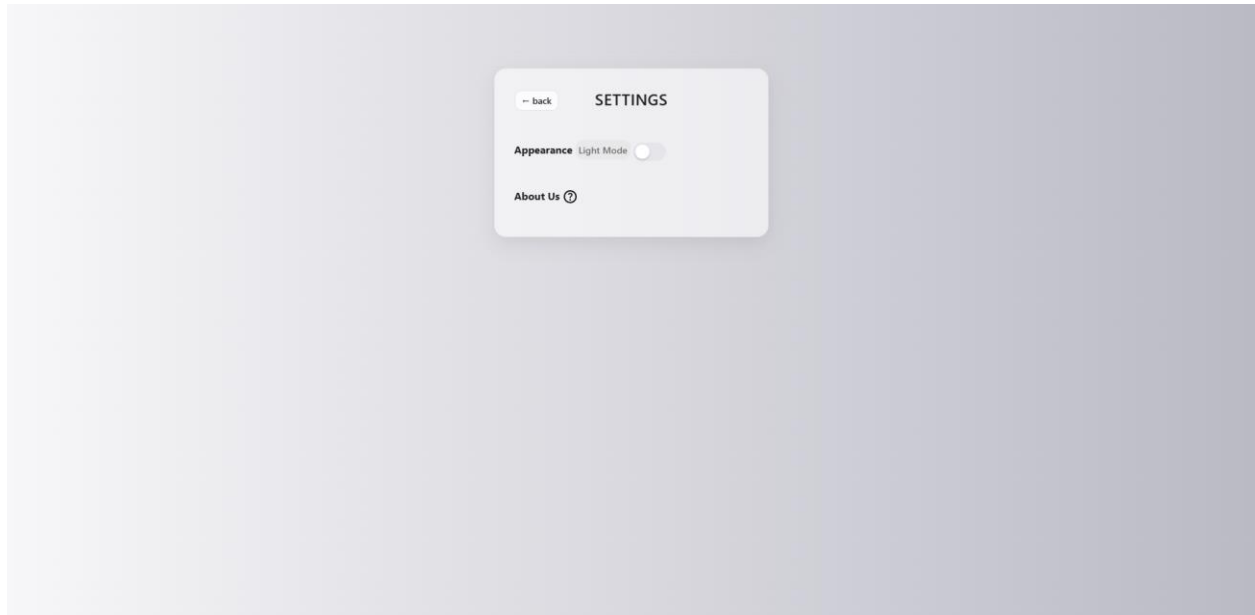

An Account user can access the following features:

- Menu bar (left side):
 - Top:
 - New Chat: Allows the user to create a new chat with A.M.I.
 - Saved Chats: Pulls up all the saved conversations with A.M.I.
 - Bottom:
 - Settings (Hyperlink)
 - Account (Hyperlink)
- Input Field: Where users can insert their prompts into the A.M.I. AI model.
- Message List: Where all the messages between the user and the A.M.I. AI model are shown.
- Avatar bar (Right side):
 - Status icon: Provides the status of the A.M.I. AI model which can be:
 - Ready: When in an idle state.
 - Urgent Symptoms Detected: User prompt causes concern.
 - Reviewing Trusted Sources: When pulling data from the database.
 - Generating Response: Informs user that the reply is being created.
 - Avatar: Displays the AI avatar model of A.M.I.
 - Text Bubble: Shows the text of what the A.M.I. AI model is talking about.

1.7 Settings

Where users can customize their experience with A.M.I.

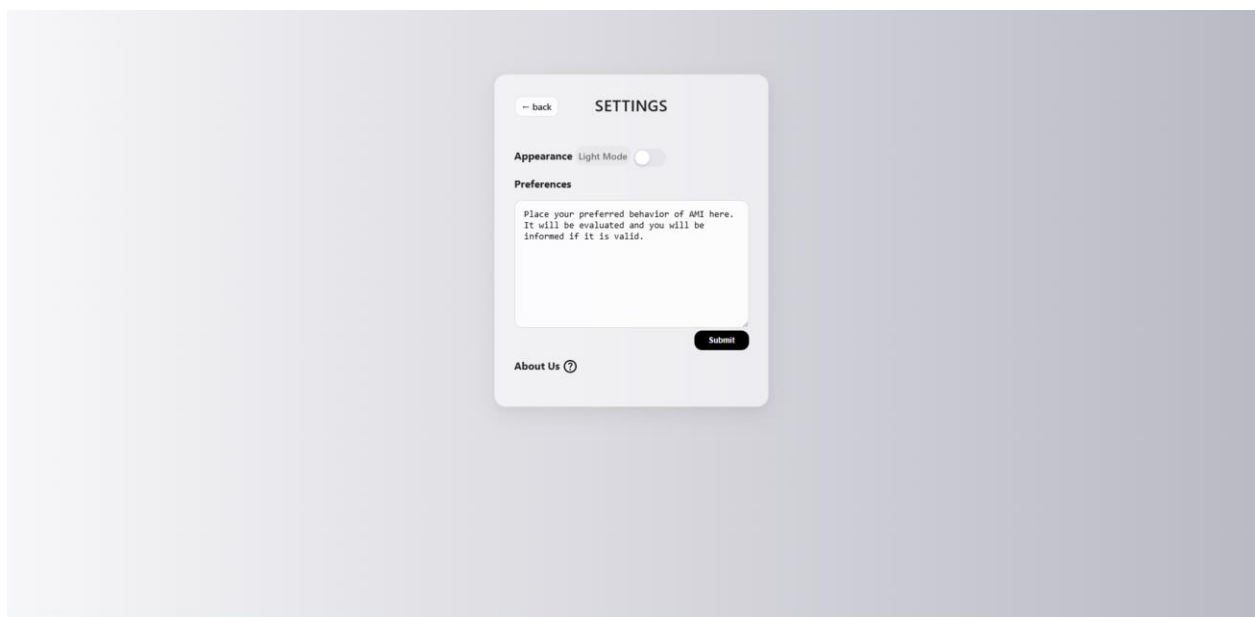

1.7.1 Guest User

A Guest user can access the following features:

- Back button: Goes back to the Chat page.
- Appearance: Allows the user to choose between light mode and dark mode.
- About Us (Hyperlink)

1.7.2 Account User

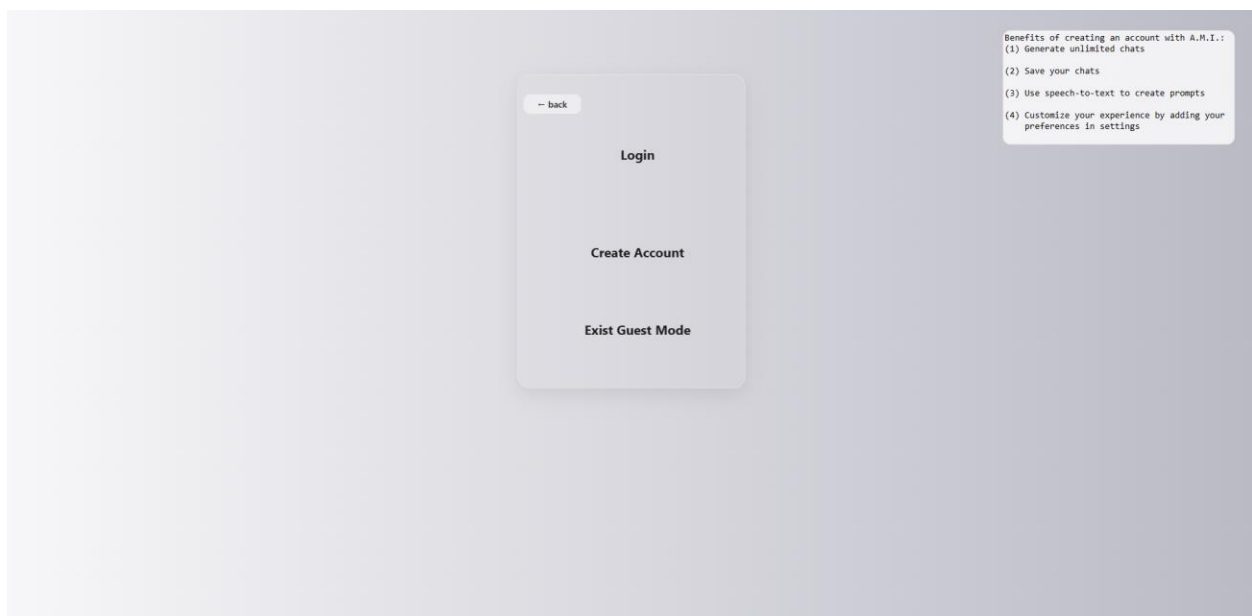

An Account user can access the following features:

- Back button: Goes back to the Chat page.
- Appearance: Allows the user to choose between light mode and dark mode.
- Preferences: Allows the user to add a prompt that customizes the user's experience across all chats with A.M.I.
- About Us (Hyperlink)

1.8 Account

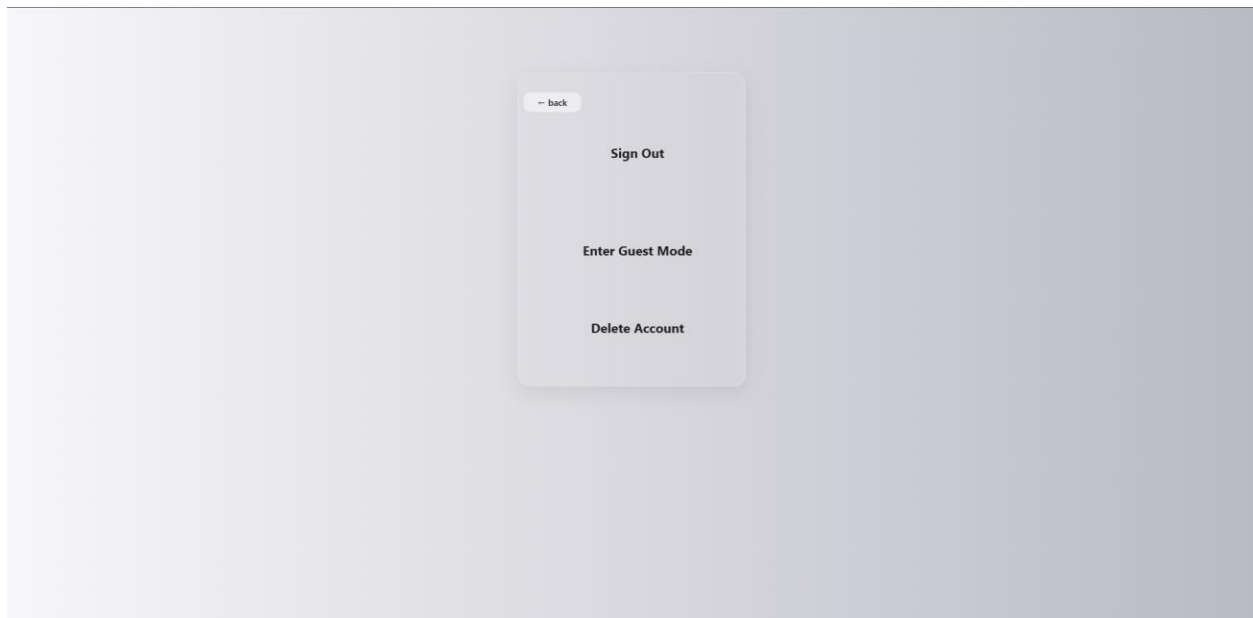

Provides users with options for their profile.

1.8.1 Guest User

A Guest user can access the following features:

- Back button: Goes back to the Chat page.
- Login (Hyperlink): Allows the user to choose between light mode and dark mode.
- Create Account (Hyperlink): Sends user to the Registration page.
- Exit Guest Mode (Hyperlink): Logs user out of guest mode and is sent back to the homepage.
- Benefits Banner: Provides a list of benefits that an A.M.I. account provides.

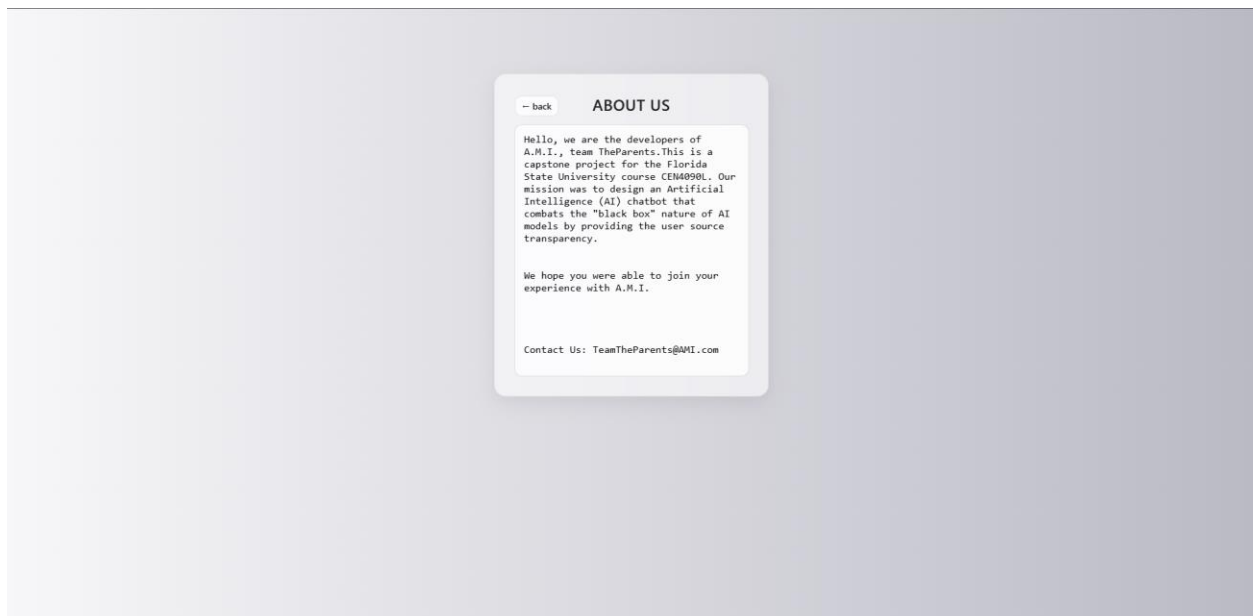

An Account user can access the following features:

- Back button: Goes back to the Chat page.
- Sign Out (Hyperlink): Logs user out of their account and is sent back to the homepage.
- Enter Guest Mode (Hyperlink): Logs user out of their account and sends user to the Chat page with guest mode.
- Delete Account (Hyperlink): Deletes user's account and is sent back to the homepage.

1.9 About Us

Information about the development team behind A.M.I.

2. Basic Tutorial for Chatbot

This describes the way a user should utilize A.M.I., how A.M.I. should not be used, and what restrictions A.M.I. follows.

2.1 Terminology

Term	Description
APA 7	Is a author-date citation style by the American Psychological Association used to provide credit for sources in academic writing.
Prompt	An input (e.g. text, image, question, command) that contains context and/or instructions to a model to generate a response.
Response	A machine-generated reply in terms of the context and/or instructions given in a prompt.

2.2 How to use A.M.I.

2.2.1 Format

- A.M.I. will always follow the following style when generating responses:
 - Content: The reply to the prompt.
 - Disclaimer: Informs the user of the level of urgency from their prompt and that the A.M.I. AI model does not represent the advice of nor replace a medical professional.
 - References: The APA 7 format for the sources used to generate the response.

2.2.2 What to do

- Keep your prompts within the field of personalized medicine.
- Provide as much context as possible that can be in a single prompt or spread around multiple prompts.
- Take the time (if possible) to review the sources provided by A.M.I. to get more information about the topic(s).
- Ask follow-up questions to allow A.M.I. to get better clarity and provide better responses to your questions.
- Understand that A.M.I. is meant to be a tool to facilitate learning, not to replace the advice from medical professionals.

2.2.3 What not to do

- Making prompts outside the field of personalized medicine:
- A.M.I. may inform you if your prompt cannot be answered.
- Providing little to no context to your prompt:
- A.M.I. will attempt to provide the most general and basic response.
- Not asking follow-up questions:

- Assuming what A.M.I. says is the correct answer will not
- Taking advice from A.M.I. at face value:
- A.M.I. is not responsible for any consequences (harm, danger, or death) of your actions following a conversation. You will be advised to seek a medical professional or emergency services if your prompts substantiate that you may cause harm to yourself or others.

2.2.4 A.M.I. Guidelines and Restrictions

- A.M.I. will never ask for personally identifiable information. If you decide to provide it:
 - As a Guest user:
 - Any conversation with A.M.I. will be deleted once exit guest mode or close the website
 - As an Account user:
 - It is under your discretion to delete the chat containing sensitive information or delete your account.
- A.M.I. follows these guidelines for any conversation:
 - Health Insurance Portability and Accountability Act of 1996 (HIPAA)
 - AI Accountability and Personal Data Protection Act of 2025

3. Citation Explanation

3.1 Goal

To provide a concise way for users to be able to understand where the source came from, an easy way to access the full text of the source, and a verifiable way to identify the authors/publishers.

3.2 Terminology

Term	Description
APA 7	Is a author-date citation style by the American Psychological Association used to provide credit for sources in academic writing.
DOI	Stands for Digital Object Identifier. It is a type of link that provides a web address that is designed to remain constant (unlike a URL). It is standard for many online academic sources.
URL	Stands for Uniform Resource Locator. It is a type of link that provides a web address to a website.

3.2 Format

A.M.I. will provide, for each source used to generate a response, a reference using the following APA 7 format from [OWL Purdue](#):

- Keywords:
 - Lastname: Author's full Last name.

- F.: Author's First name initial.
 - M.: Author's Middle name initial.
 - Year: Date of the source published.
 - Title of article: Full title of an article.
 - Title of periodical: Provides the publisher(s).
 - Vol.: Provides the volume of the article.
 - Issue: A number representing a specific edition of a journal.
 - DOI/URL: Link to the source.
- Lastname, F. M., ..., & Lastname, F. M. (Year). Title of article. Title of Periodical, Vol.(Issue), page numbers. DOI/URL

3.3 How to use

- Click on the DOI/URL of the source. This should take you directly to where the source can be found online.
- If you cannot access the DOI/URL or want to research more about the source:
 - Use the publishers to find out where the source is being distributed.
 - Use the author's name to find out who they work for or are affiliated with.
 - Use the volume and/or issues to find related sources.
